EPA Media Officers Call

August 12, 2015

Preparing for Administrator to arrive. Press call and Congressional calls canceled today. David Ostrander will start Press Calls tomorrow. RAs will no longer need to be on the calls any longer.

Christie and Jennifer will start working with folks in Durango to develop and post Q&As. *Note: I sent them the list of Qs we'd received.*

Are people on the ground developing messaging to interpret data? Deb the toxicologist is working on this. It's progressing but it's a joint process.

We are not prepared to release data today, they have not been given a go-ahead.

Robert now has access to master media list. Send contact info to Press@epa.gov and he'll use that to update the media contact list.

They will try and record Administrator's press conference but won't be able to transcribe. They plan to take notes and try to send something out.

Melissa is buried in email. If extremely urgent please call her cell: 202-697-0208 (Melissa)

Trying to get a hardline installed at the JIC. They're working out of the fairgrounds.

Will make decision by COB today as to whether additional PIO support is needed on the ground in Durango.

Telemundo is still asking for a contact. Will any of the PIOs be Spanish-speaking? That decision will come from HQ.

12:00 pm talking points won't be coming.
